

# CAIRNS AIRPORT

## PRODUCT

Cairns Airport is one of Australia's leading airports, providing links to a range of domestic and international destinations. Cairns is the only place in the world where two natural UNESCO World Heritage-listed sites sit side-by-side; the Wet Tropics rainforests and Great Barrier Reef. Cairns is also the closest Australian city to Papua New Guinea and at the heart of the Asia Pacific region, with major centres such as Tokyo, Singapore, Hong Kong, mainland China and the South Pacific in easy reach.

Cairns Airport's General Aviation precinct is home to many leading MRO and aviation operators delivering excellence in service. Cairns Airport is also currently developing a new Eastern Aviation Precinct, with plans for a common-use hangar for MRO providers, unlocking additional capacity and positioning Cairns as a national industry leader. The Cairns region offers significant opportunity for MRO operators to expand business output.

## CAPABILITIES

Cairns Airport is:

- A major aviation hub with over 100 businesses, employing more than 3,500 skilled workers
- Home to many diverse aviation businesses and industries such as Freight Consolidation, Rescue Fire Fighting Services, Avionics, State and Federal Government agencies, MRO, Other Maintenance, Charter and Scenic Flights (Fixed Wing & Rotary), FBO, Engineering, Education and Training, Aircraft Cleaning and Detailing;
- Home to Cairns Aviation Skills Centre, a training school feeding into the precinct;
- Located on a large parcel of land with multiple expansion options for Code B, Code C or larger aircraft to locate in 123 hectares;
- Adjacent to a Code 4 Category 1 runway capable of supporting up to Code E aircraft and as large as the B777 series and A330 family;
