

HESTON MRO

PRODUCT

Heston MRO is a CASA Part 145 Total Technical Care Partner and the largest independent MRO organisation in Australasia with its airside presence in Brisbane, Sydney, Melbourne, Perth, Adelaide, Canberra, Wellcamp and other airports.

With utmost focus on safety and quality, Heston MRO engineers have been delivering customer-driven MRO services for more than 30 years. We grow and develop together with our global customer base, investing in the capability and training to support latest aircraft technology platforms.

Being one of the largest independent MROs in Australasia, we understand and thrive on the changing needs of local and international airlines. Heston MRO is ready to open new line stations on demand and offer superior line maintenance, engine on wing services as well as materials and components support solutions. We build and customize MRO products around your operational needs, adding unmatched speed and flexibility to the execution process.

DISCRIMINATORS

Heston MRO is one –stop alternative to Global MRO brands, offering a wide range of services and support locally and globally.

Heston MRO operates the widest network of independent line stations across Australia. We are present in all major Australian airports and are flexible to accommodate new locations within the shortest possible timeframes.

In addition to Line Maintenance, Engine On-Wing Technical Capabilities and BSI, Aircraft Parking and Storage, Components and Warehousing solutions, CASA Part147 Technical Training School, Heston MRO has extended its presence to Europe. Heston Materials is focused on Component, Material and Repair Solutions, tear downs and manage a network of warehouses strategically located in Australia, Europe and USA.

The resulting Total Technical services are offered to the:

- International and domestic Airlines
- Leasing Companies and Asset Owners
- OEMs
